VENETO	3

In order to prevent more thefts and robberies regarding the transport of goods by road, the insurers have deemed it useful to draw up a list in which the main **"Guarded parking areas"** and **"Stop areas"**, located in different regions of Italy, are indicated.

All places mentioned in the list have been inspected by experts of security, suitably charged, which have collected the requested information, for each site, in the relevant form.

This list - where you can find the indication, region by region, of the main stop areas - is divided in two parts:

- the first one includes the **"Guarded parking areas"** which, basically, have a watchman and are equipped with a fence and suitable electronic prevention measures (anti-intrusion alarm systems, closed circuit television, etc.)
- the second one shows the **"Stop areas"**, namely the places not always fenced and guarded, where it is possible to stop the truck also for quite long periods.

In the forms of the "Guarded parking areas" and "Stop areas" some useful indications about the main structural characteristics (location, capacity, admission formalities, etc.) as well as the services offered are given.

ANIA points out that this list, of pure reference, is not exhaustive and it is to be considered as a support instrument and a kind of practical guide for the field operators.

ANIA cannot be held responsible for the information contained in this list as some of it has been provided directly by the persons in charge of the inspected sites and since the relevant characteristics and prevention measures could be subject to transformation.

### ABRUZZO

#### Service Area CIVITA SUD

Serafini Giancarlo S.a.s. di Serafini Giancarlo  
Motorway A24 - km. 47,850 - East Direction  
67060 **Civita di Oricola L'AQUILA**  
tel. 0863.900000 fax. 0863.996506

**SA** from 21 to 30 vehicles  
Free admission - free parking
